COLLEGIATE DEPARTMENT.

Classical and Scientific Course.

	Senior Class.	
NAME.		ADDRESS.
De Etta Cogswell,	- Classical,	- Eugene City.
Emma Cornelius,	- Scientific,	- Turner.
Mary Dorris,	- Scientific,	- Eugene City.
Alwilda E. Dunn,	- Scientific,	- Corvallis.
John N. Goltra,	- Classical,	- Eugene City.
Thomas C. Judkins,	- Scientific,	- Eugene City.
Elma E. Lockwood,	- Scientific,	- Eugene City.
Samuel E. McClure,	- Classical,	- Eugene City.
Wallace Mount,	- Scientific,	- Silverton.
Anna F. Pengra,	- Scientific,	- Springfield.
Minnie E. Porter,	- Scientific,	- Shedd.
Woodson T. Slater,	- Classical,	- La Grande.
Eliza L. Spencer,	- Scientific,	- Eugene City.
Jennie L. Spencer,	- Scientific,	- Eugene City.
Carrie L. Walker,	- Scientific,	- Springfield.
Absalom C. Woodcock,	Scientific,	- The Dalles.

Students in the Senior Class marked "Scientific" are taking the old scientific course, not given in this catalogue, but which involves two years less study than the classical course. These students, on graduation, will receive the degree "B. S."

Junior Class.		
NAME.		ADDRESS.
Emma A. Bean,	- O. S.,	- Eugene City.
Benjamin B. Beekman,	- Classical,	- Jacksonville.

DEPARTMENTS.

The University comprises two departments—the Collegiate and the English Preparatory.

Collegiate Department.

This department furnishes three courses of study—the Classical, the Scientific and the Normal.

All candidates for admission to the Normal Course will be required to pass an examination in the following studies:

Reading.	Written Arithmetic.
Writing.	English Grammar.
Orthography.	Geography.
Mental Arithmetic.	History of the United States.

Students entering the Classical Course, in addition to the above, will be examined in Latin Grammar and Reader, two Books of Sallust, four Books of Cæsar, Greek Grammar and Reader, three Books of Xenophon's Anabasis, Elementary Algebra, Plane Geometry, and Elementary Rhetoric.

Students entering the Scientific Course will be examined in the same studies, Greek excepted, as are required for admission into the Classical Course. They will be examined also in German Grammar, German Reader and Classic German.

For the benefit of students not prepared to enter the Classical or Scientific Course, a two years' Preparatory Course has been arranged.

English Preparatory Department.

This department has been organized to supply the existing want of suitable preparatory schools in the State, and therefore may not become a permanent feature of the University.

For the present, candidates for admission to this department, will be examined in the following studies:

Orthography.

Reading—Through the Fourth Reader.

Writing.

Elements of English Grammar.

Geography—Through Monteith's No. 3.

Mental Arithmetic—To Percentage.

Written Arithmetic—To Interest.

The course of study in the English Preparatory Department will embrace those studies necessary to fit a student for the Normal Course of the University.

Studies preparatory to entering the Classical or the Scientific Course, not included in the English Preparatory Department, will be under the *direct* supervision of the Faculty, and students taking them will be charged college tuition and incidentals.

APPARATUS.

The University has about \$2,000 worth of mathematical instruments.

Students in surveying and engineering, by means of the Solar Compass and Engineer's Transit can become acquainted with practical field work in their department, and by means of the Sextant and other instruments they can learn the methods of finding the latitude and longitude of any place.

Students in Astronomy will have access for observatory practice to the Sidereal Clock, the 42-inch Astronomical Transit and the Sextant, and with these instruments the students will be able to find the latitude and longitude as well as the exact solar time of the University building by the methods used by astronomers and navigators. Those students who wish to do so can, by means of these instruments, extend the range of their mathematical knowledge almost as far as they please.

The collection of Mechanical, Physical and Chemical Apparatus—large and expensive in the past—has been increased during the last year, by the expenditure of more than \$800.

Most of the new apparatus is supplementary to what was already here; hence, it makes but little show, though it doubles the facilities for illustration.

The following are a few of the instruments added to this Department, viz.; A Binocular Microscope—the best in the state—imported for us from London, a powerful Galvanic Battery, a very efficient Static Electric Machine and an accurate Chemical Balance, the last three being direct importations from Germany.

The Departments of Geology, Mineralogy and Natural History, are provided with large and valuable collections to illustrate their teachings. Professor Condon's cabinet is already widely known on this coast, and is justly noted for its wonderful record of Oregon's former history.

To this collection, large additions of eastern and foreign minerals are yearly made, and the whole is freely used in illustrating truth to the classes taught in these departments.

A valuable acquisition to the Department in Greek, has been made in the shape of three fine Classical wall maps.

DONATIONS.

During the past year, Hon. Henry Failing, President of the First National Bank of Portland, gave one hundred dollars to be expended for periodicals for a reading room.

Through the generosity of Mr. H. Villard, President of the Northern Pacific Railroad, who has shown himself a staunch friend of higher education, the permanent endowment fund of the University, has been increased by \$50 000.

This, in addition to his former donation of \$11,010, makes his entire donation \$61,010.

The Legislature, at its last session, emulating the example of other states, generously voted an appropriation, for University purposes, of one-tenth of one mill on the assessed value of the property of the state.

THE LIBRARY.

The University Library, which was only begun last year, through the generosity of Mr. Villard, contains over 800 volumes, and a plan is under consideration which will insure its speedy and considerable increase.

Reading Room.

During the past year, a much needed Reading Room was established; in it will be found the most prominent periodicals.

Wants.

Among the pressing needs of the University, are one or two detached buildings for the departments of Natural History and of Chemistry. In consequence of the increasing demand made upon our limited space, by the increasing number of students, the Regents are considering the feasibility of cutting up the Auditorium into a number of class rooms; this will be a serious loss in one direction to meet a more pressing want in another. It is hoped that some such provision as above suggested will render such a course unnecessary.

Owing likewise to want of space, the Library and Reading Rooms cannot be utilized as fully as they otherwise would.

Again, the needs of the two departments in question, to say nothing of the Astronomical department, are such as to demand imperatively more room than they can possibly get in their present quarters.

The Cabinet and Apparatus should, as soon as practicable, receive the assurance from accident which detached and fireproof buildings will give.

Another great want is a fund for the purchase of such technical books as each teacher requires in his department.

GENERAL INFORMATION.

Literary Societies.

There are two Literary Societies—the Eutaxian and the Laurean—connected with the University, having a common Library of nearly one thousand volumes.

Expenses.

All bills of the University must be paid each term in advance.

Tuition, per year, in the College, \$40 00; in the Preparatory, \$30 00; Incidentals in College, \$10 00.

Board and room may be had in private families at \$4 00 per week; in clubs at \$3 00.

Students are not allowed to board or room at hotels.

Examinations.

All classes will be examined at the close of each term.

Calendar.

First Term begins September 17th, 1883.

First Term ends December 28th, 1883.

Second Term begins December 31st, 1883.

Second Term ends April 11th, 1884.

Degrees.

The Degree of Bachelor of Arts will be conferred upon all students who have completed the Scientific or the Classical course as laid down in this catalogue.

Bachelors of Arts of three years' standing, may receive the degree of Master of Arts, provided, that since graduation, they have sustained a good moral character, and pursued some literary or scientific calling.

The degree of Doctor of Philosophy will be conferred upon all students who shall remain and pursue a two years' course of study under the direction of the faculty, after completing the classical or scientific course.

*BY-LAWS***Adopted by the Board of Regents defining the duties and liabilities of the students.**

Any student who shall in anywise injure or destroy any property of the University, shall be liable therefor, and upon neglect or refusal to make such compensation as the Faculty shall determine to be reasonable, may be suspended or expelled.

When a student holding a county scholarship absents himself or herself during the term, the scholarship shall be deemed vacant; provided, a scholar may be absent not longer than three months at a time, by obtaining the written consent of the Faculty.

When a student in the Collegiate or Preparatory department is necessarily absent from school on account of sickness ten weeks or more during any term, such student may be allowed one-half of the time on next term on account of such sickness.

WHEREAS, The Constitution of this State, in Article 2, Section 4, provides that "For the purpose of voting, no person shall be deemed to have gained or lost a residence by reason of his presence or absence while a student of any Seminary of learning;" therefore be it resolved, That any person attending the University upon a free scholarship, who shall vote at any local election in the city of Eugene, shall be expelled therefrom for such unlawful act by the Faculty, and, in case any other student attending the University shall vote at any such election unlawfully, he shall be expelled by the Board of Regents; and it is hereby made the duty of the Faculty to admonish the students of this by-law, and see that it is duly enforced.

COUNTY SCHOLARSHIPS.

Candidates for county scholarships must pass an examination in the studies required for admission to the Normal Course.

The Law in respect to County Scholarships.

Each county in this State is entitled to one scholarship in the Collegiate department of the University, and an additional scholarship therein for each member and joint member of the Legislative Assembly to which such county may at the time be entitled.

Applicants for County Scholarships must apply in writing for the same, to the County Superintendent of Common Schools, at least one month before the commencement of the school year in which they seek to enter, and such superintendent must receive such applications, and present the same to the County Court of the county when sitting for the transaction of county business, which court shall, with the aid of said superintendent and such other person or persons as it may see proper to designate for that purpose, examine said applicants at a time appointed by it therefor, and the scholarships to which such county may then be entitled shall be awarded by such court among the applicants found to possess the requisite qualifications, by lot. Whenever a vacancy occurs in a county scholarship during the course of any school year, application may be made for it, and the same awarded in the manner provided in this section; reasonable notice being first given of the time when the proceedings will take place.

A person entering the University upon a County Scholarship shall, at the commencement of the term next following such entry, be subject to an examination by the Faculty, and if found disqualified by reason of want of educational attainment, physical capacity, or moral character, such person shall be dropped from the roll of students, and the scholarships upon which he or she entered shall thereupon become vacant.

No person shall be eligible or entitled to the use of a County Scholarship in the University unless he or she has been an inhabitant of the county to which it belongs for one year immediately preceding the application therefor, nor unless such person possesses the qualifications, educational and otherwise, which the Board of Regents may prescribe for admission into the Collegiate Department thereof; nor shall any person who has been convicted of a crime involving moral turpitude, or who is notoriously of bad reputation or evil habits, ever be eligible or entitled to admission into said University, upon such Scholarship or otherwise.
