GENERAL INFORMATION.

OUR NEW APPARATUS.

With the present year the State University is prepared to enter upon a wider range of work. The apparatus purchased during the past year at an expense to the State of about \$5,000, is now ready for use; so that the departments of Chemistry, Physics and the higher Mathematics will at once feel the energy of this new and important help.

OUR RE-ENFORCEMENTS.

Two new professors have been added to the Faculty. President Gatch, who has for years done such good service at the head of the Willamette University, takes now the chair of English Literature and Belles-Lettres, in the State University. The people of Oregon need not be informed that the placing of Prof. Gatch at such a post means work, not only, but the work of an esteemed veteran.

Prof. Collier, widely known in our State as a teacher of Chemistry, and for some time past, as lecturer on Chemistry to the Medical Department of the Willamette University, takes the chair of Chemistry, Physics and Metallurgy in our faculty.

This last provisions opens to us two needed and important lines of work: one, that of Practical Chemistry, the efficiency of which will be greatly increased by the new set of Chemical Apparatus; the other, that of Practical Assaying, so important to our mining interests not only, but to the hundreds of hardy men who are now prospecting our mountains for ore. To all such the laboratory of the State University will now

offer an inexpensive determination of at least the qualitative character of these ores; and also the use of a collection of the different ores of the State for comparison.

This will at once be seen as the doing of an important and needed work for the State, as well as the making of Chemistry and Mineralogy, lines of practical study in our classes.

LITERARY SOCIETIES.

There are two Literary Societies—the Eutaxian and the Laurean—connected with the University, having a common library of 600 to 800 volumes.

EXPENSES.

All bills of the University must be paid each session, in advance. Tuition, per session, in College, \$20.00; in Preparatory, \$15.00; Incidental in College, \$5 00.

Second Term ends June 19th, 1880.

DEGREES.

The degree of Bachelor of Arts will be conferred upon all students who have completed the prescribed course of study; and the degree of Bachelor of Science upon all who have completed the Scientific Course. Bachelor of Arts of three

years standing, may receive the degree of Master of Arts, provided, that since graduation they have sustained a good moral character, and pursued some literary or scientific calling.

The degree of Doctor of Philosophy will be conferred upon all students who shall remain and pursue a two years course of study after completing the "classical course" under the direction of the faculty.

N. B.—Students will not be allowed to room or board at hotels.

How to Apply for County Scholarships.

The law provides for the free tuition in the Collegiate Department of one student from each county, and an additional one for each member of the legislature. Students to avail themselves of the benefits of the law must make their application, in writing, to the County Superintendent of the county in which they reside. The said County Superintendent shall refer the names of the applicants to the County Court, and the applicants shall be examined by the County Superintendent or some person appointed by said County Court. The applicants shall be examined and pass an examination in the branches required of teachers of common schools by the statutes of this State. This examination will admit the applicants to the Normal or Scientific courses, and if the applicants wish to take the Classical course, they will be required to pass an examination in the elements of Greek Grammar and Reader, Latin Grammar and Reader, and Four Books of Caesar.

For further particulars, address the President of the Faculty, or Secretary of the Board of Regents.
