COOPERATIVE COLLECTION DEVELOPMENT: OREGON AND BEYOND

Barb Butler (OIMB) and Janet Webster (HMSC)

The future

Within the next 5 years collection development as we now know it will cease to exist as selection of library materials will be entirely patron-initiated. Ownership of materials will be limited to what is actively used. The only collection development activities involving librarians will be competition over special collections and archives.

Monographs: what can we share?

Courier: Promise of 2-day turn around but in reality…

- OIMB patrons receive items from
  - Hatfield and UO Main library in 2-3 working days
  - UO Science Library in 3-4 working days
- OIMB supplied items arrive at
  - Hatfield and UO Main library in 5-7 working days
  - UO Science Library in 6-8 working days

What are we duplicating (2008)

- 50 monographs purchased by OIMB in 2008
- 38% materials unique to OIMB ($1362)
- 62% duplicated in the UO or OSU system ($2177)
- Some duplication is acceptable

Are there any longer-term trends?

What's the picture at OSU?

- 1056 Records for OSU-HMSC for 2000-2008
  - 754 circulated (71%)
- 273 are duplicated at OSU-Valley (26%)
  - 238 circulated at OSU-Valley
  - 229 circulated at OSU-HMSC
  - 15 didn't circulate (5%)
- Major subject areas
  - QLs – 32%
  - SHs – 19%
  - QH – 15%

Let's run some booleans…

- 2000-2008
- Cataloging date (eliminates items never received)
- Monographs only (serials- a whole other discussion)
- Copies at HMSC and OIMB (ignore main campus)
- Compare lists/ identify duplicates
- Circulation stats (did we duplicate unnecessarily?)
- Call numbers (knowing both collections)
- Lessons learned
