Q:HELLO4
T:

As you may recall, some of the subjects that the Health Center needs to
know about are your illnesses, exercise, health insurance, experiences with the
Health Center, safety, tobacco use, and demographic information.
The Health Center also needs to know about things which some people
regard as personal or sensitive, including alcohol and drug use, sexual
behavior, and suicide. These subjects are included because they have an
important bearing on health care and health education. You are free to skip any
questions you wish, or you may terminate the interview if it makes you feel
uncomfortable.

I also want to assure you that this interview will be completely confidential.
No one will ever be able to connect your name with your answers to the
questions.

PROBE: If you feel stress, anxiety, or psychological discomfort from these
questions, support services are available to you at the UO Counseling Center:
346-3227.
