As you may know, the DMV grants drivers' licenses after testing drivers' knowledge and skills. The DMV can also suspend or revoke licenses when drivers break traffic laws or drive drunk, or when medical problems affect a driver's ability to drive safely. The DMV needs your opinions about medically impaired drivers.

In your opinion, should medically impaired drivers be allowed to keep driving until they can no longer drive safely, should they not be allowed to drive at all, or should they be required to take tests to decide if they are still safe drivers?

PROBE: Medically impaired drivers have such problems as failing eyesight, difficulty remembering, dizziness or sleepiness from prescribed medicines, and decreased feeling or strength in their legs and feet.
