Policy at the University of California, San Diego, 1997

information provided by Crystal Graham, UCSD
for presentation by Mary Grenci, University of Oregon
Online Northwest 1998

Catalogers must check all URLs which are to be added to the record, both by verifying content before adding and by checking the link in the WebPac once it has been added to the record.

➢ Related sites that are added to the record:

    Indexes
    Tables of Contents
    Abstracts
    Selected articles
    Supplementary information
    Updating information
    Other bibliographically related information, if judged important

➢ Related sites that are not added to the record:

    Subscription information
    Web site for the associated body only
    Sites with advertising only
        Sites not related bibliographically to the publication (i.e. only related by subject)
